

## Visit Niseko with Japan Ski Experience

### Niseko Skiing and Snowboarding

Niseko is widely regarded as Japan's premier ski resort due to both the amount and the quality of powder snow falling throughout the season. Niseko, in the last few years, has launched itself onto the international scene, fast becoming recognised as one of the most popular winter destinations in the world. This is hardly surprising given that it is the world's second snowiest ski resort!

With wide open courses (up to 5.6km), numerous tree runs, backcountry, off-piste, first tracks and night-skiing options, Niseko caters for all levels from beginner to expert.

From wide, soft groomed runs for first timers, through to the thrill of dropping off the summit into fresh powder, the experience of Niseko will last you a lifetime.

Niseko's extensive lift system covers 64 courses. With the lifts meeting at the summit, skiers have access to the mammoth terrain of Grand Hirafu, Hanazono, Higashiyama and Annupuri resorts which combine to make Niseko United. There is quality beginner terrain at the base, excellent powder stashes throughout the area and the thrilling "Peak" challenges for advanced skiers.

### Niseko Night Skiing

Skiing in Niseko doesn't stop when the sun goes down, with skiers and boarders on the mountain enjoying the tranquility and powder until 9pm.

When combined, the Niseko United terrain offers not only the largest night skiing area in the world, but also some of the most memorable skiing you'll ever have. With ample light for Niseko's thrilling tree runs, and bright, crowd free spaces for beginners, it's an experience for all.

## Terrain Park

Niseko has large, internationally developed and recognised terrain parks with rails, kickers, a variety of different sized table tops for all levels. Most are located in the Hanazono area, which includes a sensational half pipe!

## Après Ski

Hirafu Village is Niseko's main hub (not to be confused with Niseko Village). Niseko boasts more than one hundred choices of Japanese and International bars and restaurants, shops and traditional hot-springs.

Local specialities worth trying are Hokkaido's delicious soup curry, ramen, soba, sushi and Ghengis Khan BBQ. Whether you are looking for a traditional relaxed Izakaya or partying into the early hours, Niseko has fantastic Apres choices for all.

Onsen offer a wonderful opportunity to experience a unique aspect of Japanese culture, bathing in mineral rich, naturally heated hot spring water. People around Japan have enjoyed this mind and body revitalizing experience for well over a thousand years.

The Niseko area is particularly famous for the quality of its spring water, coming from deep within the Mount Yotei interior.
